### Driver Tips:

#### How to Avoid Danger from Aggressive Drivers:

First, be a cautious and considerate driver.

- Don't tailgate another motorist
- If you are in the left lane and another motorist wants to pass, mover over and let the driver by.

Second, if you do encounter an angry driver, don't make things worse.

- Avoid eye contact.
- Steer clear and give angry drivers plenty of room.
- Don't make inappropriate hand or facial gestures.

If none of this works and you are concerned for your or your passenger's safety, call 9-1-1
